

## National Regulations Lithuania

### Ministry of Agriculture of Lithuania

According National Regulations, the projects, which are implemented into the sectors of agriculture, environment and others, as described in Regulation (EB) Nr. 800/2008 are financed. Fund for each international call are estimated considering to the priorities of the Ministry of Agriculture of Lithuania (MAL).

### Requirements for fund

Relevance of the applicants to get the fund is valued in the working group of the ERA-NET Project, which is guiding the criteria of availability and selection priority and is taking into account the recommendations of international experts.

### Assessment of requisitions

The assessment of international call is administrated of secretariat, participating the coordinator of the Project ERA-NET.

Using virtual joint budget financing model, assessment of requisition is proceeded in four stages:

1. Inspection of administrative correspondence;
2. Inspection of national eligibility to finance;
3. Inspection of international experts;
4. National inspection concerning funding according the criteria of selection priority.

Using real joint budget financing model, assessment is preceded in two stages: inspection of administrative correspondence and inspection of international experts.

### Confirming of requisitions and agreement
